■ THANKS TO GOOD PLANNING, MULUND IS BEING RECOGNISED AS A FAST GROWING DESTINATION TODAY

Good corporate spaces can

O2 - BREATHING LIFE INTO BUSINESS

Planned infrastructure, connectivity and greenery makes Mulund Special

Welcome to the greenest and cleanest cover of Mumbai - Mulund. Thanks to planned development with wide streets, Mulund is Mumbai's own Singapore. And rightly so, Green cover is not the only eye candy here. Planned infrastructure, connectivity and modernity brought about by premium residential townships, malls, multiplexes and high spending capacity of its neo rich population has made Mulund the fastest growing suburbs of Mumbai in this decade.

Traditionally, the workforce of Mulund has travelled to South Mumbai or CBDs like Masjid Bunder / VT etc.. That flow has been largely due to the presence of market based conglomerates in these CBDs. But that is changing with times with hi-speed communication of businesses over the internet.

Happy Home Group is nearing completion of one of the most iconic commercial projects "O2",

setting a new business altitude for the professional and business community of Mulund and Central Suburbs. It promises to reduce the travelling time and increase business efficiency in one of the most serene environs facing the Yogi Hills of Mulund.

The 15-storeyed hi-end twin towers offer office space starting from 1100 sq. feet upto 12500 sq. feet floor plate suitable for SME as well as corporate entities and showroom spaces suitable for retail, automobiles, furniture concepts and banquets.

O2's USP lies in working 9 to 9 in a stress - free green environ, in an attractive glass façade with 14 feet floor to floor height, lavish landscape podium garden, grand entrance lobbies, reception and in-

The future is holistic

house facilities like cafeteria, board room and gymnasium among others. It is being developed by veterans in the real estate sector, Happy Home Group (founded by Dinesh Kuwadia) in association with the Vikas Group, reputed Developers of Central Suburbs. It has the professional backbone of famous Elevation Designer Architect Jayendra Patel

of Spacious Designs and acclaimed interior designer Kiran Gala. The project is on schedule and will be delivered by March 2011 - true to the Developer's commitment to give Mulund world class offices and showrooms.
